### LANGUAGES

- English (Fluent)
- Danish (Intermediate)
- completed PD3 exam
- Russian (Native)

### HOBBIES

- Puzzles
- Video games
- Board games
- Quizes
- Yoga

### PROFILE

I'm in the process of switching my career path after relocating to Denmark.

Previously, I worked as an appraiser and in client service, but I've discovered a strong interest in frontend development.

I have just completed a professional retraining programme in Full-Stack Development - a career-change course similar to a second degree.

I'm currently looking for a frontend internship or junior position in Denmark. My long-term goal is to grow into a full-time role in the tech industry.

### PROJECTS

#### XR-Place Landing page

Front-End Developer (React, TS)

- A hackathon where my team developed a website for a company specializing in 3D apartment layouts.
- The project was built using React and involved integrating external APIs, which allowed me to demonstrate my ability to collaborate effectively and deliver functional solutions under tight deadlines.

#### Memory game

[See on Github](#)

Front-End Developer (React, JS)

- Implemented core functionality: card flipping, matching logic, and game state management using React hooks.
- Ensured UI accessibility through ARIA attributes and semantic HTML, enhancing the experience for all users.

### SELECTED PREVIOUS WORK EXPERIENCE
